A phone call today at 3:30 works fine. Please call 360 473-5266. If no one answers that number then try(b) (6)

Thank you very much.

Hi Mayor Lent-

We have received the letter from Mr. Lassiter on behalf of Mrs. Sesko and can discuss it with you. Right now, looks like 3:30 will work on our end. If that time works for you, please send me a phone number and we'll give you a call.

I will be joined by Elizabeth McKenna, the attorney I am working with on the Site.

Hello Bill,

I am more than happy to provide input and stakeholder outreach suggestions pertaining to your attachment.

I have just received a copy of a letter sent to you from Natacha Hsiao Ling Sesko c/o Kenneth Lassiter and would invite a telephone conversation with you to address the content of this letter. Our Legal Counsel, Roger Lubovich will be on this call with me and could we schedule it for Monday, April 8th anytime from 8:00 AM to 11:30 AM or in the afternoon between 3:00 PM and 5:30 PM?

Thank you for giving me this time and your attention,

Sincerely,

Patty Lent, Mayor
City of Bremerton

Subject: Bremerton Gasworks Draft Community Involvement Plan

Mayor Lent and Councilwoman Flemister-

Thank you for agreeing to review EPA Region 10's draft of our initial Community Involvement Plan for the Bremerton Gasworks Superfund site [attached]. The plan lays out how EPA will keep stakeholders informed and engaged as we initiate and move forward with site cleanup activities. The plan also documents community concerns and information about the site that we gathered when we held public sessions in Bremerton last September.

The Community Involvement Plan is a "living" document, meaning it can and will be updated as the cleanup work progresses. We appreciate your interest and willingness to review this version of the plan before we distribute it for wider consumption. We are particularly interested in any ideas you may have on how to inform and involve the public that are not contained in the current version of the document.

You'll note that we have included an element in our plan to inform and work with the City in disseminating information (see page 3). Please let us know what you think of that part of the plan.

We understand that there may be a number of folks at the City looking at this document. It would be greatly appreciated if the City could provide us with a single set of comments, if at all possible.

It would be most helpful to us if you could provide any comments you may have by close of business on **Friday, April 12, 2013**. If that date proves difficult to meet, please let me know.

Thanks.
